# Phone Systems

The transition from copper to the NBN was undoubtedly the biggest technology shift in voice communication since the first telephone service in Australia was launched in 1879. Austral Business Machines has been in the Telco business for 23 of those years - selling, installing and maintaining phone systems in the Sunshine Coast region since 1998.

[View Phone Solutions Here](#)

## Hosted Solution

A hosted solution has the ability to grow and change according to your needs and preferences. Giving you a unified communication solution with full business phone system features. Reliable and fully-featured phone service that simply works.

## On Premise Phone Solution

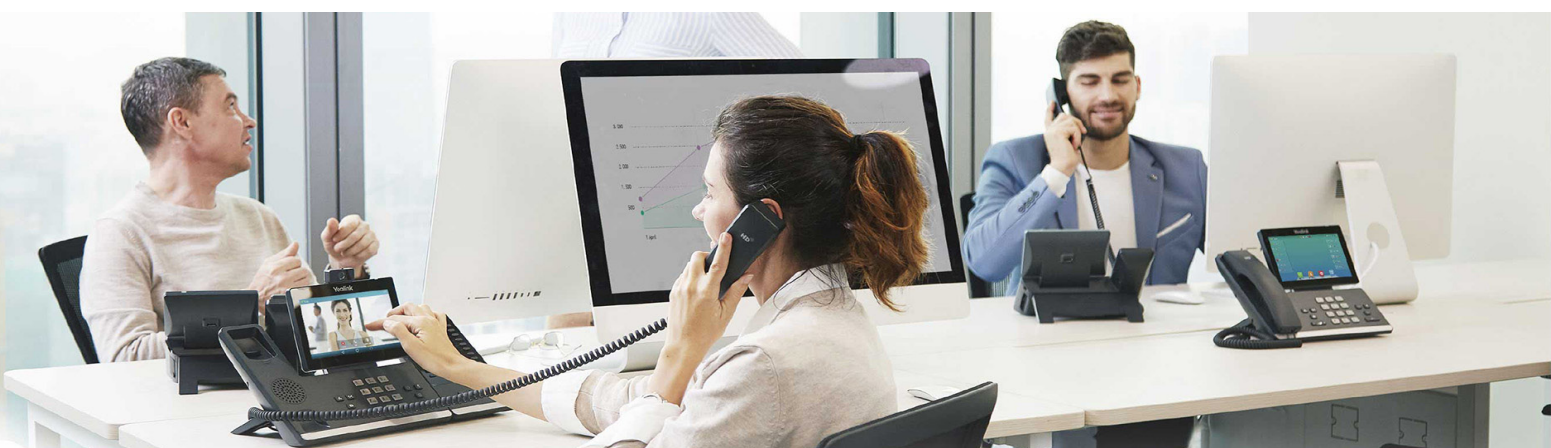

An on premise PBX system provides you with superior telephony features. It is a reliable and feature rich solution with advanced call conferencing, recording, voicemail to email and using smart phones as extensions.

## Easy to use, reliable and feature rich phone systems

We offer:-

- Full warranty on all hardware for the life of the agreement.
- All-inclusive service and support.
- Competitive call plans - unlimited or capped.
- In-house technicians – our systems are professionally installed and maintained by our qualified technicians.
- Single local point of contact for all service, support & billing enquiries.
- Multiple Internet Solutions - Fibre, NBN, Wireless and 4G backup

We have found in most instances that we can provide a better telephony solution, at a lower cost than business owners are currently paying – **with an expected saving of approximately 10-20% on current Telco spend.**

MAXHUB is an interactive flat panel that replaces traditional display equipment such as projectors, whiteboards, telephones. They are designed with smart applications that are optimised for use in education, hospitality, medical, conferencing, digital signage, and similar environments.

### Conferences and Meetings

An all-in-one display the Maxhub integrates the functions of projector, whiteboard, advertising signage, computer, microphone, audio, and more.

### Education

Make classes come alive with an interactive flat panel, firmware and app for class preparation and delivery. It is a total solution for all your educational needs.

### Medical

Maxhub is a great tool for professional diagnostic and clinical review displays. Adjust brightness stabilisers, ambient light and DICOM calibration. It has built-in film clamp and writing system.
